

STREET SWEEPING SCHEDULE

- ✚ Please park your vehicles *OFF* the street on sweeping days, and ask your visitors and guests to do the same, so that the street sweeper can reach all curb-and-gutter areas. Thorough street sweeping prevents tons of pollutants from entering the watershed.
- ✚ Please make sure your trash and recycling containers are out of the street on sweeping days.
- ✚ Please do not blow, sweep, or hose any grass or yard clippings into the street or gutter.
